TO WHOM IT MAY CONCERN:

We have known Brett Schwab for over five years, and offer the following information as to his capabilities:

- ..he was solely responsible for the upgrade and change-over for our company computers, so as to handle the Y2K Millennium issue,
- ..he directed and made the successful changeover of our accounting system, MAS90,
- ..he upgraded the company computers so as to handle Internet and EDI capability.

Mr. Schwab communicated well and worked competently with a diverse office staff; and saved our company time and money due to his effective suggestions and ideas, far beyond our initial requirements.

As well, he took extra time to teach and train the staff, and worked on an individual basis when required.

Obviously, we were very pleased with his services. If necessary, we would have no hesitation in retaining his services again. We hold the highest regard for his work, and can recommend him and his services.

To Whom It May Concern:

Dauids & Royston Bulb Company has worked with Brett for almost 20 years. It is safe to say that no one lasts that long without proving himself over and over again.

Through the years we have seen our accounting system go from Basic Four to Unix to Windows. Brett has seen us through each conversion and kept this company's network up, running and growing through thick and thin.

Brett has written countless programs that have enabled us to market more effectively to our customers. This in turn has allowed Dauids & Royston to remain an effective and viable business within our industry. The amount of business that would have been lost, if not for his abilities, would cost this company thousands and thousands of dollars.

RE: Brett Schwab
Letter of recommendation

To Whom it May Concern:

Our professional relationship with Mr. Schwab over the past three years has been most rewarding. He has continued to rise to the occasion whenever we needed him. He has supported our computer network, telephone system, Internet and faxing needs from the ground up.

Brett saved us countless dollars during our remodeling by keeping our computer system up and functional during the construction phase. The benefits of having our accounting system and patient history available, during this time, was incalculable.

While we're faced with finding someone as well rounded as Brett, and will miss his level of knowledge. I am sure whichever company has the lucky enough to get him will also benefit from his depth of experience and proven skills.

I would recommend Mr. Schwab to any company looking for people with strong integrated computer knowledge, network and analytical ability.

Sincerely,

Helen Prignano
Practice Coordinator

Re: Letter of recommendation for Mr. Brett B. Schwab

I have known Mr. Brett Schwab on a professional and personal basis for seven years.

In December 1999 Coastal Comfort Manufacturing purchased a complete new business computer system (hardware and software) from Brett.

Brett has always demonstrated the highest degree of professionalism and knowledge concerning the installation, training and most important to me "support" of the system we purchased.

It has always been a pleasure working with Brett and I truly feel he would be an asset to any Company.

Sincerely,

Gary J. Gill - Office & Credit Mgr.

I take pride in delivering world-class experience and professionalism to all my positions. Please read what some of my colleagues and employers have said about me!

- “Brett has provided consistent and excellent service since I have worked with him. He is detail oriented and ethical in carrying out his responsibilities and duties.”

David Simard, President, Storm Properties, 2008

- “I worked with Brett for two years at TelASIC Communications. Brett is a highly skilled and experienced IT professional who consistently delivered a quality work product and service well within budgetary considerations. Brett was highly regarded for asking incisive questions and managing a company wide IT function that encompassed a wide array of hardware and software configurations. Brett could always be counted on as a solid team player.”

John Lavalle, CFO, TelASIC Communications, 2008

- “Brett in the many many years I have known him has proven himself an independent hard worker. He is a driven individual who finds problems and creates the answers. His ability to lead, motivate and challenge people around him makes him an asset to any organization. Brett comes with my highest recommendation and regard.”

Day Armelli, Advertising Director, Marc Glassman Inc, 2008

- “Brett has exceptionally technical and practical knowledge in the field of IS & IT. He has developed new techniques, procedures, practices and processes that have improved efficiency and productivity within the company. I would highly recommend Brett.”

Connie B. Hobbs, Director of Sales & Marketing, Storm Western Development, 2008

- "I had the pleasure of having Brett report to me in a dual capacity, viz., IT Manger and Facilities Manager. In these capacities Brett was responsible for the day to day operation, maintenance and upgrade of all the computer systems, servers and infrastructure for TelASIC. This included Windows, Linux and Sun Solaris servers, workstations and PC's. Brett performed his duties efficiently and with great competence while directing his staff on mission critical projects. His responsiveness was always excellent and was especially stellar during crisis situations.

I would recommend Brett highly to anyone looking to employ him and can state that he would make a great addition to any company team."

Joseph E. Santilli, Director QRA, IT, Facilities, TelASIC Communications, 2006

- “I was involved in hiring Brett at TelASIC when I was a oversaw the company's finance function as a consultant. Brett is knowledgeable and disciplined in both managing and performing IT server/systems and helpdesk functions. But above all, Brett has a great attitude involving a strong internal customer support mentality, effectively presenting IT issues as business tradeoffs for decision-making, and focus on getting things done.”

Tim Driscoll, Independant Consultant, TelASIC Communications, 2006
